

Building Trades Career Training Program

6-Month Day and
13-Month Evening Classes

Objective

Building Maintenance teaches diversified skills needed to maintain and renovate commercial and residential properties. Students are taught basic skills in electricity, carpentry, plumbing, heating and air conditioning maintenance. Training also includes painting, papering, and tiling. Students acquire skills in appliance repair.

Employment Opportunities

Graduates are prepared for entry-level employment as maintenance mechanics in apartment complexes, healthcare facilities, industrial establishments, and commercial buildings.

Career Outlook

According to the U.S. Department of Labor, employment of general maintenance and repair workers is expected to grow 11 percent during the 2008-18 decade, about as fast as the average for all occupations. Source: Bureau of Labor Statistics, "Occupational Outlook Handbook," 2010-11 Edition.

Industry Certification

Students in this program are eligible to receive industry recognized certification from the Residential Construction Academy (RCA) of the Home Builders Institute upon successful completion of certification exams.

Train Green at Orleans
