

We Are Technology!

Today's Court Reporters are Technology Professionals.

They fulfill roles beyond serving as courtroom stenographers. Using unique skills and "realtime" computer technologies, court reporters produce instant, accurate transcriptions and captioning that are now essential to businesses and customers, as well as television and online.

Learn How You Can Become a Court Reporter & Captioner

100% JOB PLACEMENT RATE for students who completed this program. 7/1/09-6/30/12

Open House/Info. Session

Sat., May 18, 2013, 10 am-noon
Learn about the education of a qualified court reporter and captioner and their prestigious roles in legal settings, businesses, TV, colleges, and services for the deaf and hard-of-hearing. Listen to a special presentation from working professionals who are reaping the rewards of this in-demand career path, and watch hands-on demonstrations of the state-of-the-art technologies used in the field.
